

## Buddha Statue

The Buddha Statue is the world's largest single-stone statue of Buddha, which is made of a white granite rock. It is 22 metres (72 feet) in height and 450 tonnes (4,50,000 kilograms) in weight. It is located in the center of the lake on the rock of Gibraltar in the tranquil waters of the Hussain Sagar Lake. It was a contribution of the Buddha Poornima Project held in the year 1985.

The statue was carved by 200 artisans for more than two years. The statue has been shipped to Hyderabad in November 1988, after some initial troubles, the Buddha statue was raised up on 12 April 1992. The atmosphere ponders peace and perseverance. A visit to the Buddha statue by boat would be an unforgettable experience.

Height 17 meters,  
Weight 320 tonnes.

*The Hussain Shah Wali was the maker of the lake during the time of the famous builder Ibrahim Quli Qutb Shah. The lake was made with a view to fight the water crisis of the people. The City has a vast repertoire of places to make you get the very best of your sojourn, the city boasts of several historical monuments. The beautiful place has the NTR memorial, the Lumbini Park, the Hyderabad Boat Club, a flyover is nearing the completion on one side of tank Bund, while the Secunderabad Sailing Club, Sanjeeviah Park and the resurrected Hazrat Saidani Ma Saheba tomb, are on the Secunderabad side of the lake, and all of which are appealing to the tourist.*
