

The destiny of India lies in the hands of the youth. Yuva Power is what will define India’s future. Several YOUTH based organizations are passionate about the country and want to engage in ways to make things better.

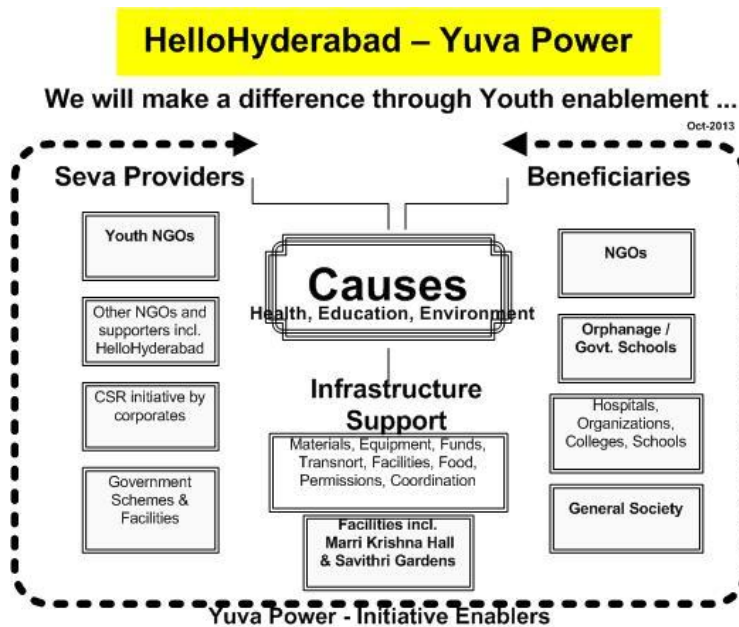

Through the Yuva Power initiative we look forward to connect, support and work with Youth in their SEVA endeavors. Youth have a lot of positive ideas and energy. It is our goal at Hello Hyderabad to facilitate/assist the youth to unleash their talents and passion and do their best for the society. We hope our Yuva Power initiative will help towards this end.

We are planning several initiatives in the Health, Education and Environment space where we are looking at involvement of Youth NGOs. Let it be an English speaking initiative at an orphanage or traffic safety drives in colonies or blood donation initiatives for Thalassemia patients or Health Camps or Voter enrollment and engagement in colleges or supporting and respecting Women through MARD type programs or tree plantation or adopting solar power solutions or promoting cultural as well as sporting activities or promoting Green in Festivals like Holi, Ganesh, Diwali youth involvement is Key.

Youth are fundamental to any long term sustainable change which needs to be brought about. We believe the Yuva Power initiative will evolve as per our aspirations and alignments of all those involved as we strive in making a meaningful difference.

We encourage Youth to continue to be positive change agents and stay involved in social service activities.

Vande Mataram !!!

Coordination from: Savithri Gardens, Channa Reddy Enclave, BodUppal, (Opposite Spark Hospital)
 Contact No: 040 6456 6636 / 789 369 2663; yuvapower@hellohyderabad.org
